# Today's clinical trials for tomorrow's standard of care

The Cancer Clinical Trials Office at Beaumont offers personalized service to those seeking care through clinical trials. The research that you participate in today can lead to tomorrow's medical treatments and disease prevention strategies.

## **What's a clinical trial?**

Clinical trials are research studies in which people choose to participate to help doctors find ways to improve health and cancer care.

## **Where are clinical trials offered?**

Beaumont has clinical trial offices in Grosse Pointe, Royal Oak and Troy.

## **When should I consider a clinical trial?**

If you or a loved one is diagnosed with cancer, ask the attending physician if participation in a clinical trial is possible.

For a list of available clinical trials, contact us:

**248-551-7695**

### **NCI Grant Number**

Beaumont's NCI Community Oncology Research Program (NCORP) is a project supported by Award 1UG1CA190002 from the National Cancer Institute. Additional support is given by the Beaumont Research Institute and Beaumont Health System. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Cancer Institute or the National Institutes of Health.
