Main Page

What are wiki pages?

Wiki pages are user-written articles on a range of subjects. Any contributor or a group of contributors can create (and own) new articles, and there can be multiple articles on the same wiki, each written by a different author.

Who can make a wiki page?

Anyone with an account can create a new article. When creating a new article, the initial contributor can choose to have a defined list of authors, all of whom can edit the page, or have an open, wiki-like format where anyone can contribute.

Computational Round Robin #1 (Nozzle)

Created on 19 Jan 2017

PROJECT HOME PUMP(round robin2) FDALink Computational Round Robin #1 was an international effort to assess the state of the art in biomedical computational fluid dynamics. We devised a benchmark standard model of a generic medical device, consisting of a nozzle with a conical change in...

Pump Data

Pump home All dataset is stored in .xls format. The excel worksheet has velocity magnitude data and the corresponding X/Y/Z coordinates for each 2D plane. The X/Y/Z coordinates should match with the CAD and CFD geometry coordinates. The PIV data is posted in the table below for the following six...
